11 MILLION

COMPONENTS TO ADVANCE THE NAP PROCESS

SUPPORTING ADAPTATION INITIATIVES OF THE GOVERNMENT OF CAMBODIA

" We strongly believe that addressing climate change is the only way to ensure our survival and prosperity. We believe that we can turn the climate change crisis into a new opportunity for a greener, low-carbon, resilient, equitable, sustainable and knowledge-based development.
SAY SAMAL
Minister of Environment, Kingdom of Cambodia

" Climate change is a strategic challenge to development, requiring urgent and joint attention. This challenge requires us to urgently create an appropriate climate policy that responds to local, regional and global levels.
SAMDECH TECHO HUN SEN
Prime Minister of the Kingdom of Cambodia
