Expanding the Ongoing Support to Least Developed Countries (LDCs) with country-driven processes to advance National Adaptation Plans (NAPs)

Overall objectives:

to support the NAP process in LDCs which could facilitate financial and technical support to LDCs.

to contributes directly to the achievement of SDG 13, the GEF6/LDCF programming strategy for adaptation and gender equality objectives.
Specific Objectives

1. Enhance technical capacities in understanding how to apply different tools at different stage of developing an implementable & country-owned NAPs: climate rationale tools, appraisal & prioritization tools and project development tools.

2. Strengthen south-south cooperation: exchange experience and cooperative action on adaptation and knowledge transfer

<tr>
<th>STEP</th>
<th>Key Questions</th>
<th>Indicative activities</th>
</tr>
</thead>
</table>
| B3 - Reviewing and appraising adaptation options | • What are the costs and benefits of each adaptation option?  
• How best can the adaptation options be implemented, and what are the conditions for success?  
• Is it possible to identify co-benefits between the adaptation options and development? | a. Appraise individual adaptation options, including economic, ecosystems and social costs and benefits, and possibilities for unintended (positive and negative) impacts of adaptation measures |
### NAP Technical Guidelines
